- A) Crew accommodation
- B) Storage of medical records
- C) Storage of essential medical supplies and drugs
- D) Navigation equipment storage

Answer:

- C) Storage of essential medical supplies and drugs\*

Question 16:

Which medical condition is commonly addressed with the use of seasickness patches on ships?

- A) Hypertension
- B) Diabetes
- C) Motion sickness
- D) Respiratory infections

Answer:

- C) Motion sickness\*

Question 17:

What does the term "Yellow Fever Vaccination Certificate" indicate in the context of maritime medical care?

- A) A certificate for sea survival training
- B) A certificate for onboard cooking skills
- C) A certificate indicating vaccination against yellow fever
- D) A certificate for navigation proficiency

Answer:

C) A certificate indicating vaccination against yellow fever\*

Question 18:

What is the primary purpose of the "Medical Waste Disposal Plan" on a ship?

- A) Navigation route planning
- B) Engine maintenance procedures
- C) Safe disposal of medical waste
- D) Cargo handling guidelines

Answer:

C) Safe disposal of medical waste\*

Question 19:

In the context of medical care on ships, what does the term "MOB" stand for?

- A) Maritime Occupational Benefits
- B) Medical Officer on Board
- C) Man Overboard
- D) Medical Observation and Breaks

Answer:

C) Man Overboard\*

Question 20:

Which medical condition is commonly addressed with the use of antiseptics and bandages on ships?

- A) Hypertension
- B) Diabetes
- C) Wounds and injuries

D) Respiratory infections

Answer:

C) Wounds and injuries\*

Question 21:

What does the term "First Aid Manual" provide guidance on in the context of medical care on ships?

A) Navigation techniques

B) Engine maintenance procedures

C) Basic first aid and emergency procedures

D) Cargo handling guidelines

Answer:

C) Basic first aid and emergency procedures\*

Question 22:

In the context of medical care on ships, what does the term "ISO Containers" refer to?

A) International Safety Organization containers for medical supplies

B) Isolation containers for contagious diseases

C) International Standard Organization containers for cargo

D) Isolation containers for medical waste

Answer:

C) International Standard Organization containers for cargo\*

A) Navigation route planning

- B) Engine maintenance procedures
- C) Emergency procedures for evacuating injured crew members
- D) Cargo handling guidelines

Answer:

- C) Emergency procedures for evacuating injured crew members\*

Question 24:

Which medical condition is commonly addressed with the use of anti-seasickness medications on ships?

- A) Hypertension
- B) Diabetes
- C) Motion sickness
- D) Respiratory infections

Answer:

- C) Motion sickness\*

Question 25:

What is the purpose of the "Medical Logbook" on a ship?

- A) Recording navigation details
- B) Recording medical incidents and treatments
- C) Engine maintenance records
- D) Cargo handling records

Answer:

- B) Recording medical incidents and treatments\*

Question 26:

In the context of medical care on ships, what does the term "CPR" stand for?

- A) Cardiovascular Proficiency and Response
- B) Cardio-Pulmonary Resuscitation
- C) Cargo Planning and Routing
- D) Crew Personnel Regulations

Answer:

- B) Cardio-Pulmonary Resuscitation\*

Question 27:

What is the purpose of the "Medical Chest Inventory" on a ship?

- A) Navigation route planning
- B) Recording medical incidents and treatments
- C) Engine maintenance records
- D) Inventory of medical supplies and drugs

Answer:

- D) Inventory of medical supplies and drugs\*

marinefriend.com

Question 28:

Which medical condition is commonly addressed with the use of pain relievers on ships?

- A) Hypertension
- B) Diabetes
- C) Motion sickness
- D) Headaches and pain

Answer:

- D) Headaches and pain\*

Question 29:

In the context of medical care on ships, what does the term "MERSAR" stand for?

- A) Medical Emergency Response and Search and Rescue
- B) Maritime Emergency Response and Search and Rescue
- C) Medical Emergency Rapid Situation Assessment and Response
- D) Maritime Emergency Rapid Situation Assessment and Response

Answer:

A) Medical Emergency Response and Search and Rescue\*

Question 30:

What is the primary purpose of the "Medical Officer's Handbook" on a ship?

- A) Navigation techniques
- B) Engine maintenance procedures
- C) Guidance for medical officers on board
- D) Cargo handling guidelines

Answer:

C) Guidance for medical officers on board\*

These questions cover various aspects related to "Medical Care (MC)" on ships. If you have any specific areas you'd like more questions on or if there's anything else I can help you with, feel free to let me know!
